What this feature covers

Three stages, five steps: the activity reports view, filtering and building a report, and reading the results.

CH 01	Open activity reports Safety events sit alongside the trip data.	00:00–00:14
CH 02	Filter and build a report Narrow to what matters, then generate the report.	00:14–00:25
CH 03	Analyse the results The report ties the events back to where they happened.	00:25–00:37

- **Every event has footage.** Distracted driving and speed zone violations are logged with the video clip, so a conversation with a driver starts from evidence.
- **Filter before you report.** Date, event type and vehicle narrow the set, which matters on a fleet generating events daily.
- **Reports are reusable.** A custom activity report can be saved and run again rather than rebuilt each period.

READ AS Screens are captured from the walkthrough video at the timestamp shown on each step. Vehicle names, locations and speeds are demonstration data.

Open activity reports

STEP 1 • 00:03 IN THE VIDEO

Find the reports

Activity reports sit in the left pane alongside trips, events and live status.

CHAPTER 01 • STEP 1 OF 2

STEP 2 • 00:09 IN THE VIDEO

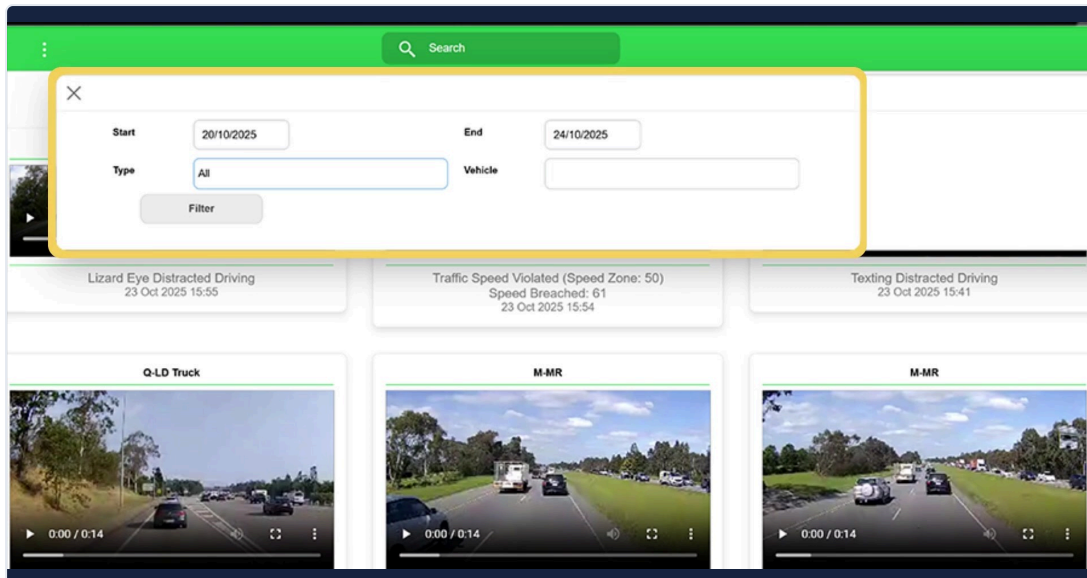

Review the camera events

Events list as thumbnails with the date, vehicle and event type, each carrying its video clip.

CHAPTER 01 • STEP 2 OF 2

Filter and build a report

Narrow to what matters, then generate the report.

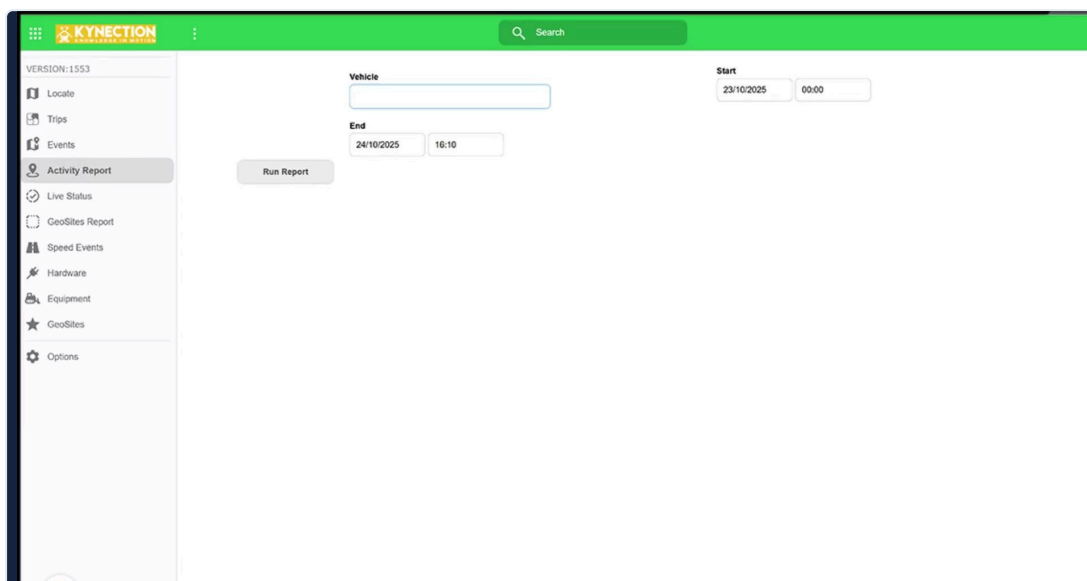

STEP 1 • 00:17 IN THE VIDEO

Filter the events

Start and end dates, event type and vehicle narrow the set. Events such as distracted driving and speed zone violations can be isolated.

CHAPTER 02 • STEP 1 OF 2

STEP 2 • 00:22 IN THE VIDEO

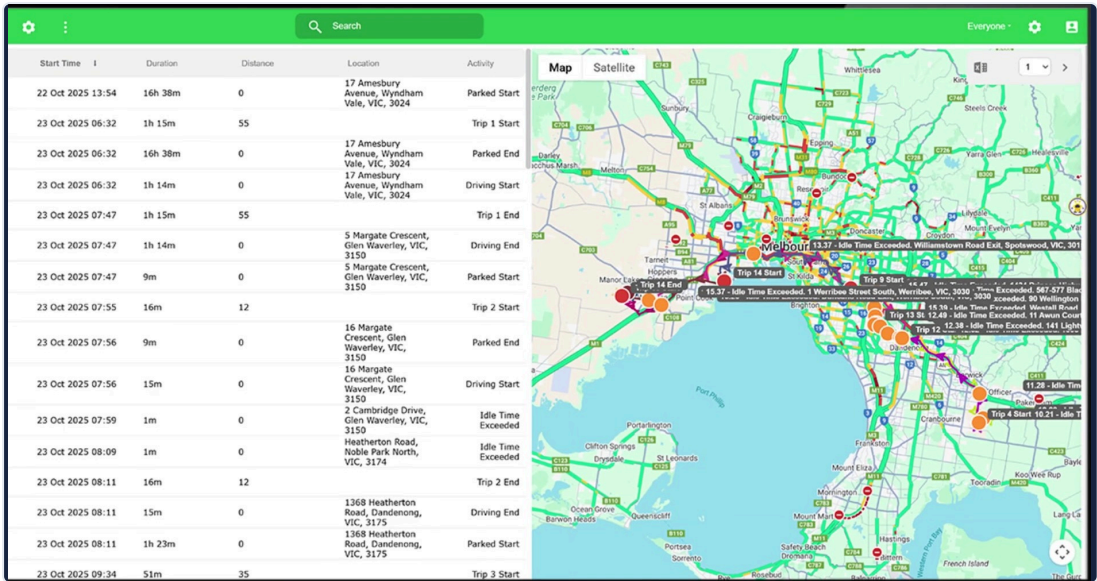

Run a custom report

A new report takes the vehicle and period, and can be saved for reuse.

CHAPTER 02 • STEP 2 OF 2

Analyse the results

The report ties the events back to where they happened.

STEP 1 • 00:31 IN THE VIDEO

Read the report

Results list the detailed vehicle performance data alongside the map, so a pattern of events at one location becomes visible.

Where to go next
