What this feature covers

Two stages, four steps: opening the inventory area, and reading warehouse stock levels.

CH 01	Open the inventory area	00:00–00:21
	Inventory sits with the sales functions on the mobile dashboard.	

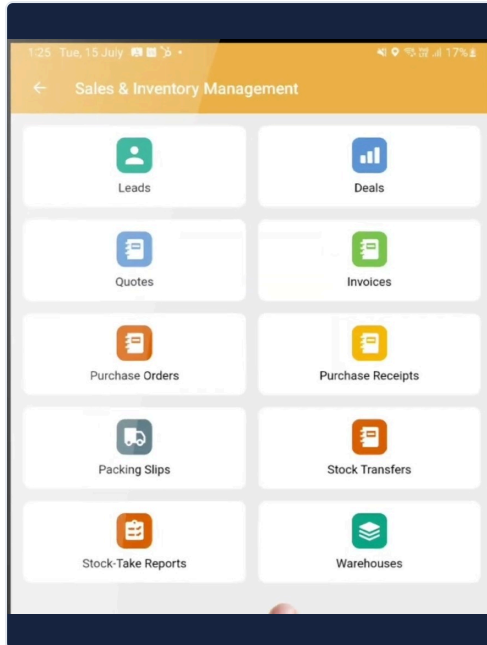

CH 02	Read warehouse stock	00:21–00:38
	Warehouses list, and each opens to what it holds.	

- **Vehicles are warehouses too.** Vans and utes appear in the warehouse list alongside fixed stores, so stock on wheels is tracked the same way.
 - **On hand is not the same as available.** Each item shows what is on hand and what is already assigned out.
 - **Start here.** The next guide covers counting that stock with a barcode scan.
-

READ AS	Screens are captured from the walkthrough video at the timestamp shown on each step. Product names, counts and dates are demonstration data.

Open the inventory area

Inventory sits with the sales functions on the mobile dashboard.

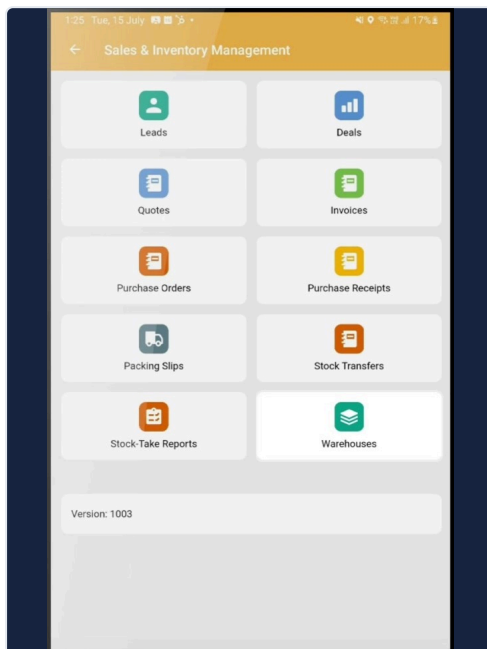

STEP 1 • 00:09 IN THE VIDEO

Open Sales and Inventory

The dashboard carries leads, deals, quotes, invoices, purchase orders, purchase receipts, packing slips, stock transfers, stock-take reports and warehouses.

CHAPTER 01 • STEP 1 OF 2

STEP 2 • 00:15 IN THE VIDEO

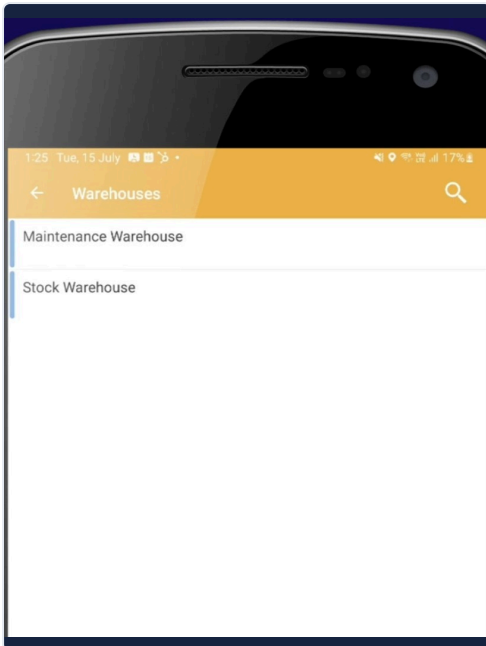

Read the feature set

Everything in the mobile inventory module is reached from these tiles.

CHAPTER 01 • STEP 2 OF 2

Read warehouse stock

Warehouses list, and each opens to what it holds.

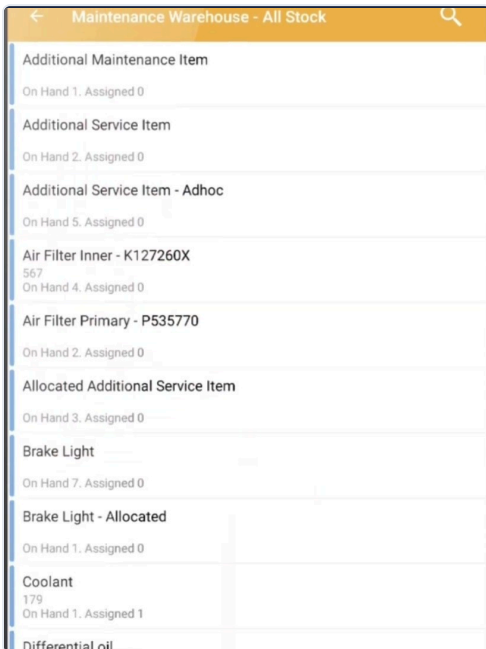

STEP 1 • 00:25 IN THE VIDEO

Open the warehouses list

Warehouses list on the phone, here a maintenance warehouse and a stock warehouse. Vans and utes appear here too where they are configured as stock locations.

CHAPTER 02 • STEP 1 OF 2

STEP 2 • 00:33 IN THE VIDEO

Check on-hand and assigned

Opening a warehouse shows every item with its on-hand count and how much is already assigned out, so what is genuinely available is clear.

CHAPTER 02 • STEP 2 OF 2
