What this module overview covers

Six stages cover the module end to end. Chapters 1 and 2 are the catalogue and warehouses. Chapters 3 and 4 are stock detail and assignment. Chapters 5 and 6 are transfers, stocktakes and packing slips.

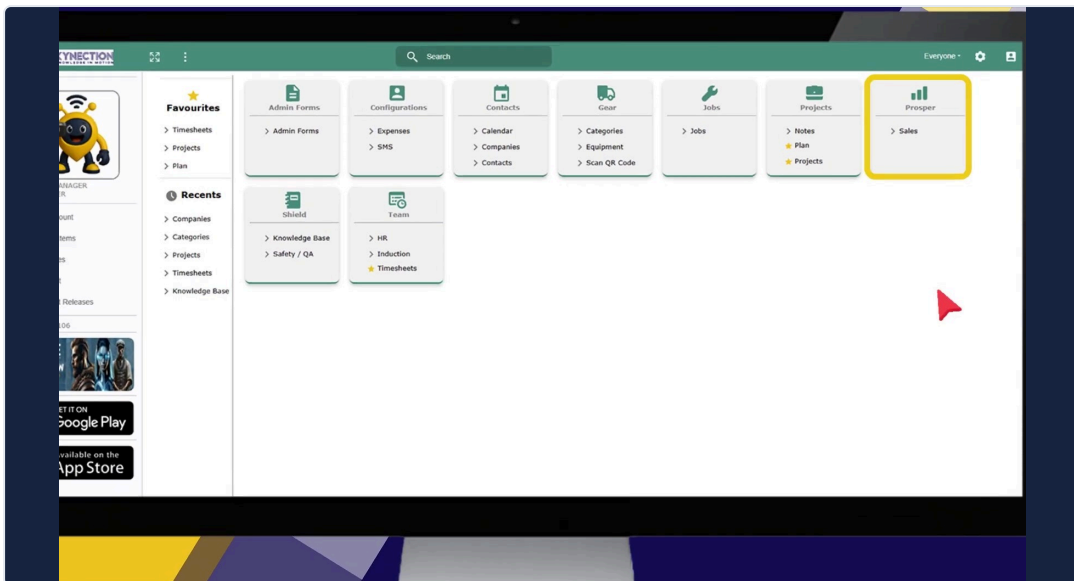

CH 01	The catalogue Everything the business holds or sells, split by whether it is counted.	00:00–00:53
CH 02	Warehouses and stock levels Where the stock physically is, and how much of it there is.	00:53–01:28
CH 03	QR codes and stock detail Printing the labels, and reading the history behind an item.	01:28–02:13
CH 04	Assign stock Issuing stock to the work that consumes it.	02:13–02:43
CH 05	Transfers and stocktakes Moving stock between locations, and counting what is actually there.	02:43–03:15
CH 06	Packing slips What leaves the warehouse, and for whom.	03:15–03:33

- **Stock and non-stock behave differently.** Stock items are counted and tracked by location; non-stock items are not.
- **QR codes tie the shelf to the record.** Printing and attaching them is what makes a mobile stocktake fast.
- **Assignment is where stock goes missing.** Issuing to a project, job or person is what turns an unexplained shortfall into a traceable one.

READ AS Screens are captured from the walkthrough video at the timestamp shown on each step. Company names, policy numbers and dollar values are demonstration data.

The catalogue

Everything the business holds or sells, split by whether it is counted.

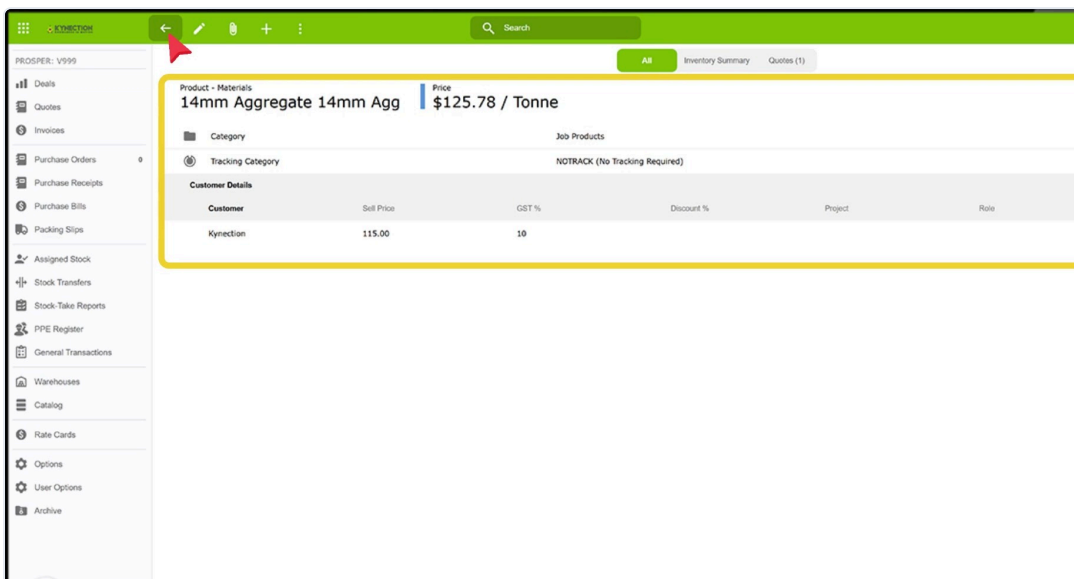

STEP 1 • 00:13 IN THE VIDEO

Open the catalogue

The catalogue lists stock and non-stock items with their codes and categories.

CHAPTER 01 • STEP 1 OF 2

STEP 2 • 00:30 IN THE VIDEO

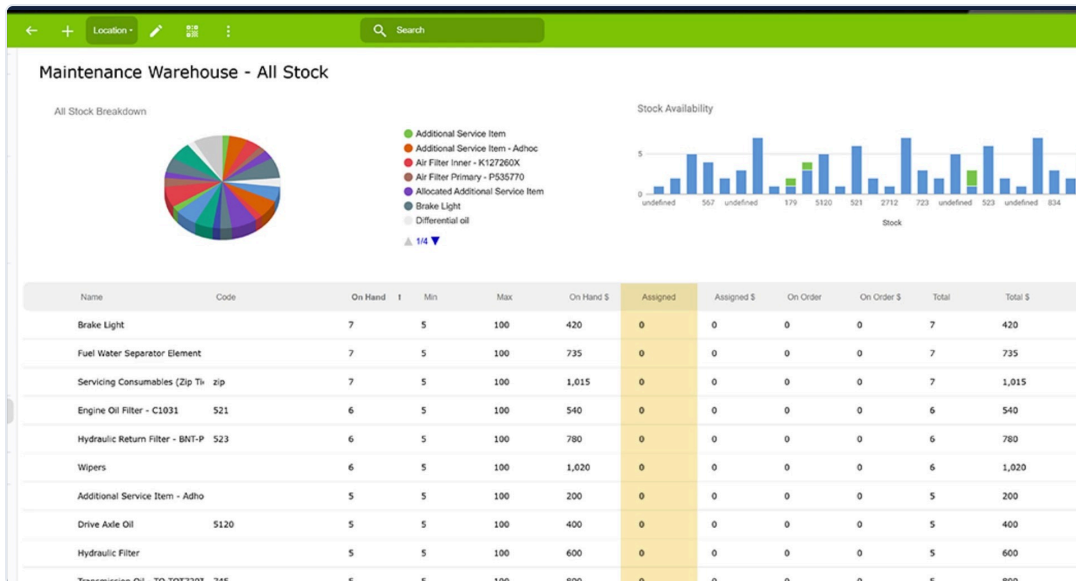

Read the item detail

Each item carries its code, category, supplier and pricing.

CHAPTER 01 • STEP 2 OF 2

Warehouses and stock levels

Where the stock physically is, and how much of it there is.

STEP 1 • 01:10 IN THE VIDEO

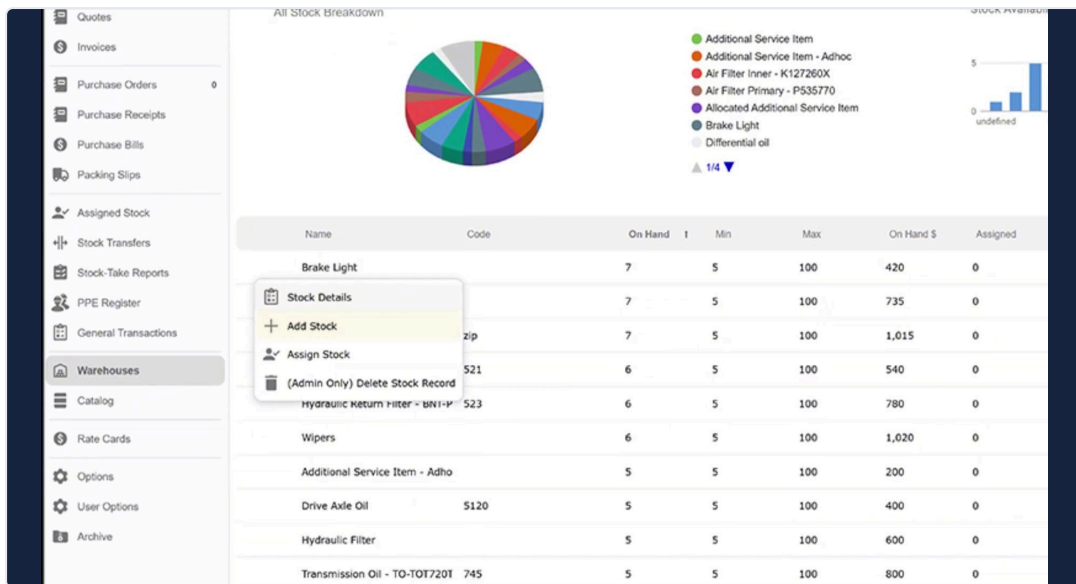

Check stock availability

The warehouse view charts stock availability by item, with the all-stock breakdown alongside, so a shortfall is visible before someone goes looking for it.

CHAPTER 02 • STEP 1 OF 1

QR codes and stock detail

Printing the labels, and reading the history behind an item.

STEP 1 · 01:44 IN THE VIDEO

Print QR codes

QR codes are generated and printed for stock items, which is what makes scanning on the floor possible.

CHAPTER 03 · STEP 1 OF 2

The screenshot shows the 'Brake Light' product page with the 'History' tab selected. The page header includes a search bar and tabs for Stock Details, Assigned, On Order, and History. The 'Warehouse History' table is displayed below.

Quantity	Action	Actioned By	Actioned Module	Actioned Item	Purchase Price	Price	Date	
7	Received	Ky Admin	undefined	Maintenance Warehouse	60		13 Jul 2023 11:44	

STEP 2 · 02:07 IN THE VIDEO

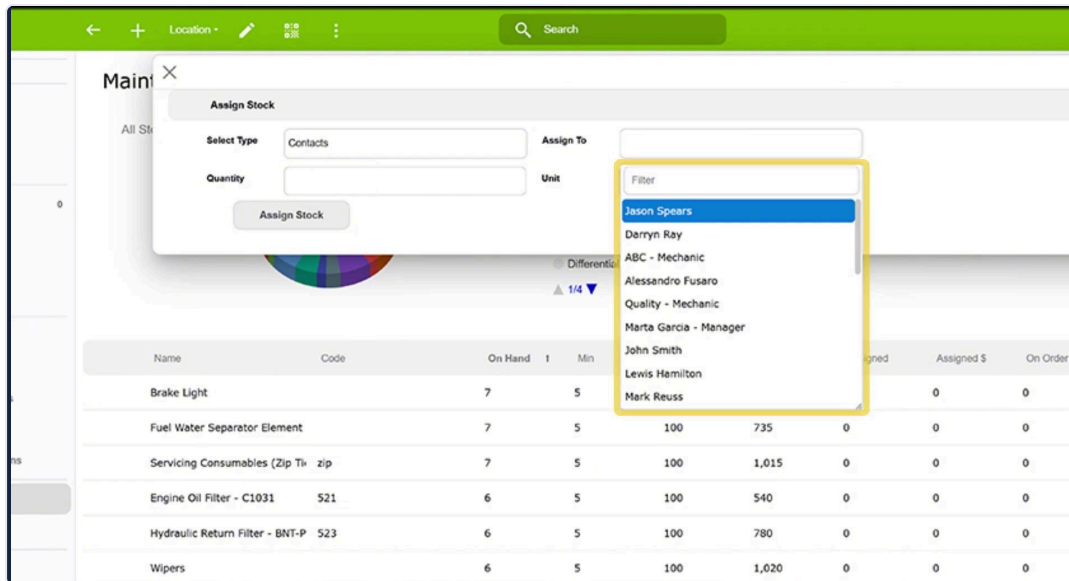

Read stock history

Stock history and on-order quantities show what has moved and what is still coming.

CHAPTER 03 · STEP 2 OF 2

Assign stock

Issuing stock to the work that consumes it.

STEP 1 • 02:28 IN THE VIDEO

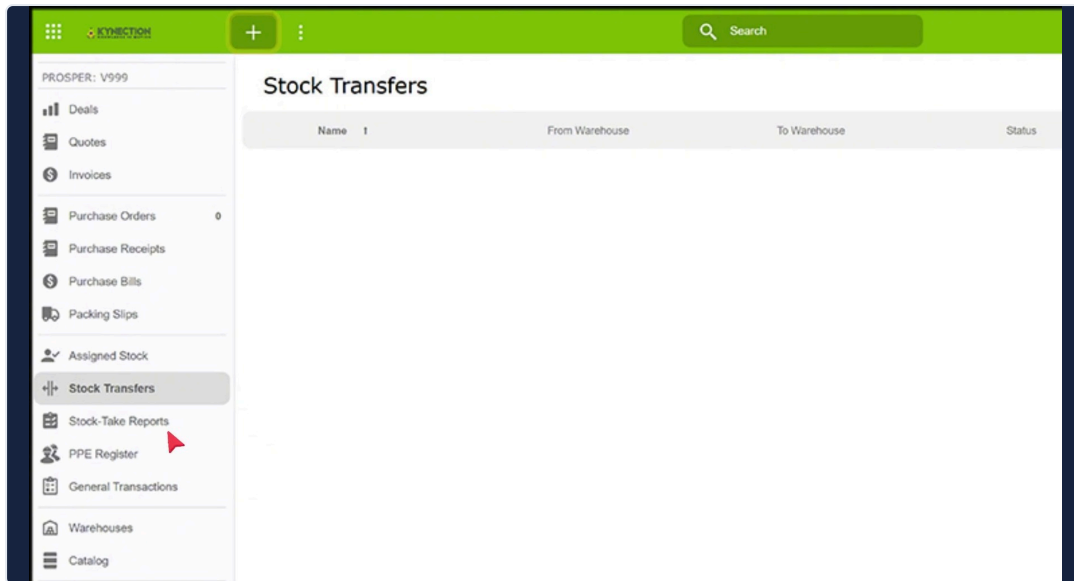

Assign to a project, job or contact

Stock is assigned out to a project, a job or a person, which is what keeps consumption traceable.

CHAPTER 04 • STEP 1 OF 1

Transfers and stocktakes

Moving stock between locations, and counting what is actually there.

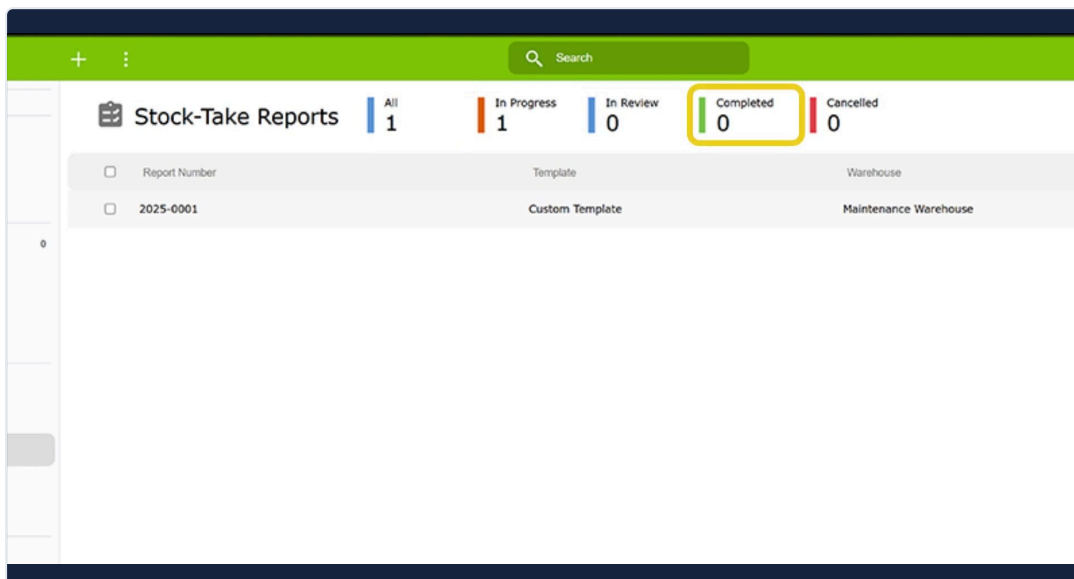

STEP 1 • 02:49 IN THE VIDEO

Transfer between locations

Stock transfers move quantities between warehouses, keeping both locations accurate.

CHAPTER 05 • STEP 1 OF 2

STEP 2 • 03:05 IN THE VIDEO

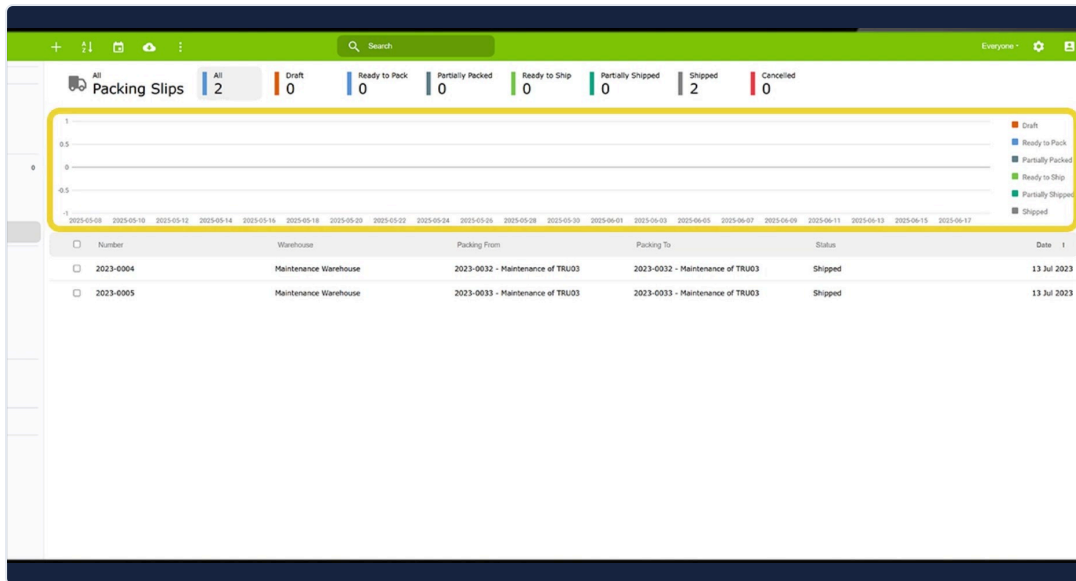

Run a stocktake

Stocktake reports drive a physical count and record the variance against the system figure.

CHAPTER 05 • STEP 2 OF 2

Packing slips

What leaves the warehouse, and for whom.

STEP 1 • 03:24 IN THE VIDEO

Manage packing slips

Packing slips record what has been picked and despatched against a customer and origin warehouse.

CHAPTER 06 • STEP 1 OF 1
