#### FEATURE GUIDE

KYNECTION • INVENTORY • PART 3

# Track Warehouse Stock *Levels and Print QR Codes*

Running a warehouse day to day: stock levels, locations down to floor, shelf and bay, generating QR codes, and reading an item's supplier detail, history and what is on order.

## What this feature covers

Three stages, six steps: the warehouse dashboard and locations, QR codes and editing, then stock detail and history.

| CH 02 | <b>QR codes and editing</b><br>Label the stock, then maintain it.                  | 00:29–00:48 |
| CH 03 | <b>Stock detail and history</b><br>Where an item came from, and where it has been. | 00:48–01:14 |

---

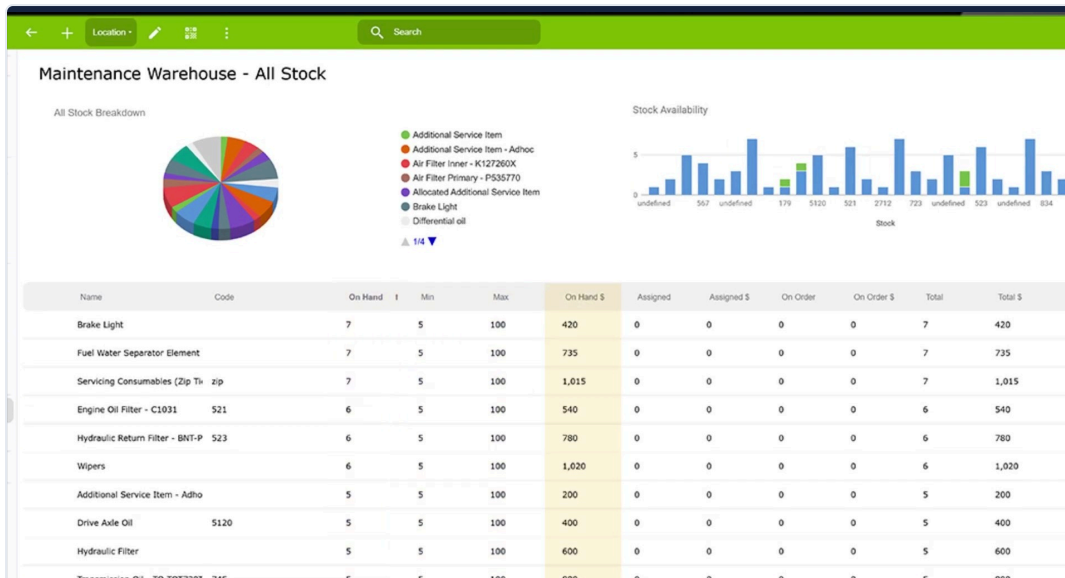

- **Locations go deeper than the warehouse.** Floors, shelves and bays are what make a large store searchable.
- **QR codes are the link to mobile.** Printed and attached, they turn a stocktake into a scan.
- **On-order matters as much as on-hand.** A shortfall with stock already on order is a different problem to one without.

---

**READ AS** Screens are captured from the walkthrough video at the timestamp shown on each step. Company names, policy numbers and dollar values are demonstration data.

# Warehouse and locations

What is held, and exactly where.

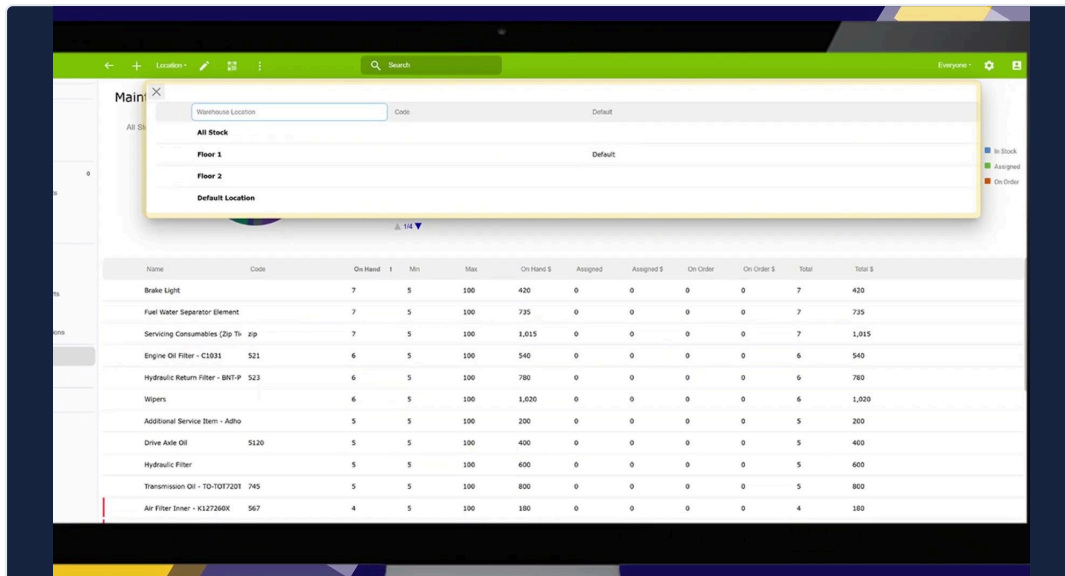

STEP 1 • 00:09 IN THE VIDEO

## Read the warehouse dashboard

The dashboard charts stock levels and availability across the warehouse.

CHAPTER 01 • STEP 1 OF 2

STEP 2 • 00:24 IN THE VIDEO

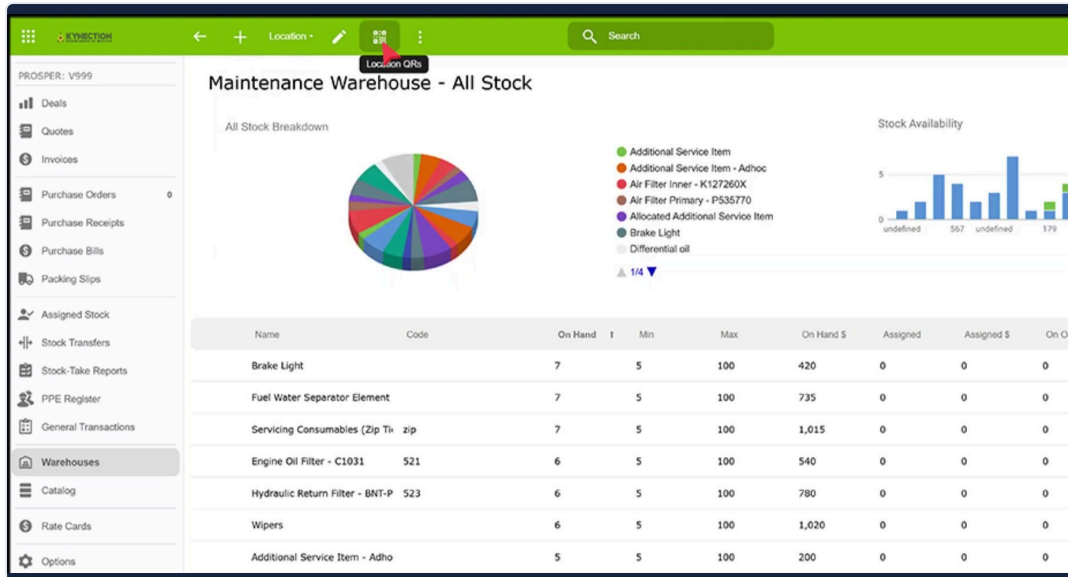

## Manage stock locations

Locations break down into floors, shelves and bays, so an item can be found rather than searched for.

CHAPTER 01 • STEP 2 OF 2

## QR codes and editing

Label the stock, then maintain it.

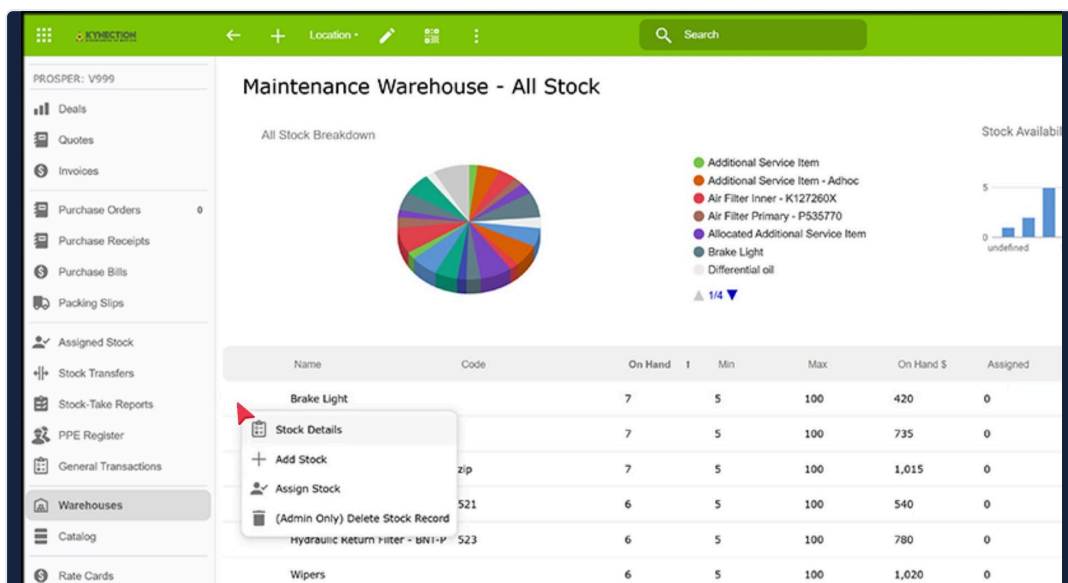

STEP 1 • 00:31 IN THE VIDEO

### Generate the QR codes

QR codes are generated and printed for inventory items.

CHAPTER 02 • STEP 1 OF 2

STEP 2 • 00:41 IN THE VIDEO

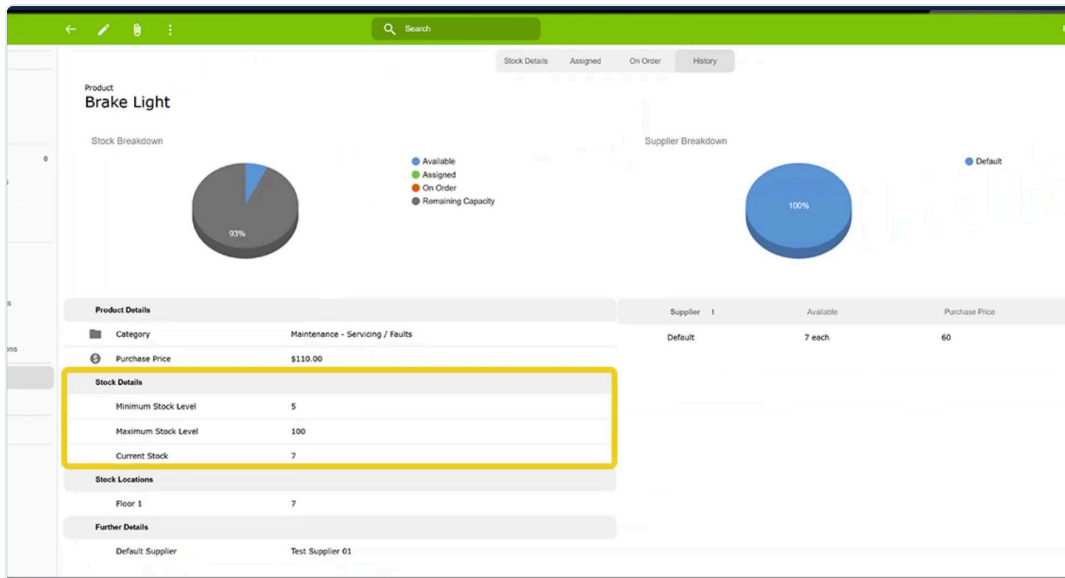

### Open the editing options

Stock editing and assignment options are reached from the item itself.

CHAPTER 02 • STEP 2 OF 2

# Stock detail and history

Where an item came from, and where it has been.

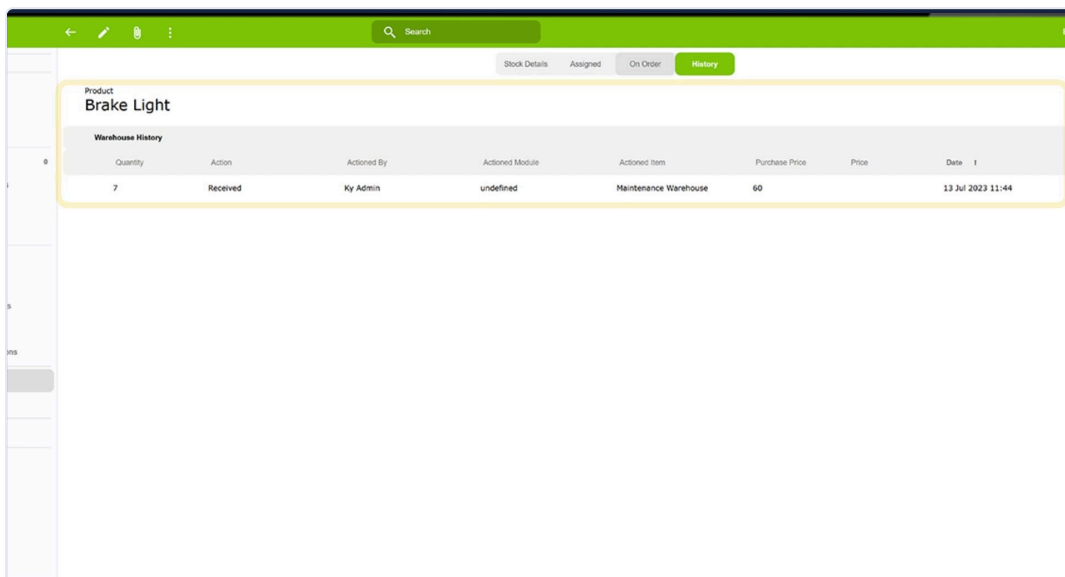

STEP 1 • 00:54 IN THE VIDEO

## Read the supplier detail

Each item carries its detailed stock and supplier information.

CHAPTER 03 • STEP 1 OF 2

STEP 2 • 01:07 IN THE VIDEO

## Track history and on-order

Stock history shows what has moved, and on-order quantities show what is still coming.

CHAPTER 03 • STEP 2 OF 2

NEXT

## Where to go next

This guide covers one part of the module. The rest of the series covers it end to end.

NEXT UP - Inventory Web 04

Run stocktakes and assign warehouse stock
