FEATURE GUIDE

KYNECTION • PROJECTS • PART 4 OF THE PROJECTS MODULE

Project Info, Finance, *Plans and AI Analysis*

The deeper tabs on a mobile project: the info record, priced project items, invoices and purchase orders, the drawings library with on-site markup, and running a site photo through AI analysis.

4 CHAPTERS

1 MIN 50 SEC

PROJECTS

MOBILE USERS • SITE TEAMS

FEATURE GUIDE • 1 MIN 50 SEC

What this feature covers

Four stages, nine steps: project info, items and finance, files and plans, then photos and AI analysis.

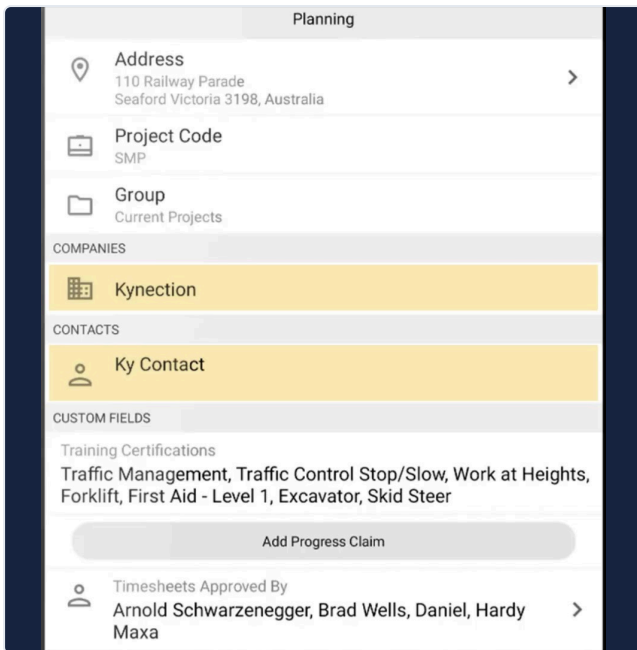

CH 01	Project info and items The info tab is the record; project items are what the job is made of.	00:00-00:50
CH 02	Finance Invoices and purchase orders against the project, on the phone.	00:50-01:00
CH 03	Files and plans Drawings are opened and annotated where the work is happening.	01:00-01:30
CH 04	Photos and AI analysis A site photo can be turned into a written analysis report.	01:30-01:49

- **Items are priced and billable.** Each carries unit price, unit cost, quantity, type and whether it can be billed, with sub-products and labour beneath it.
- **Plans are marked up in the field.** Notes, photos, forms, free drawing and punch items all attach directly to the drawing.
- **AI analysis writes a report.** A photo run through Construction Analysis returns a structured written site report rather than just a tag.

READ AS Screens are captured from the walkthrough video at the timestamp shown on each step. Project names, addresses and dollar values are demonstration data.

Project info and items

The info tab is the record; project items are what the job is made of.

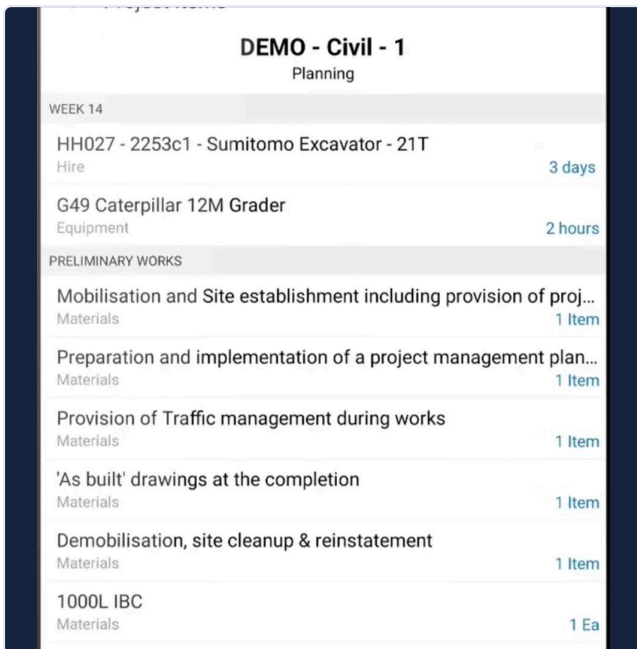

STEP 1 • 00:10 IN THE VIDEO

Read the project info

Info holds the address, project code, companies, contacts, custom fields, training certifications and who approves timesheets.

CHAPTER 01 • STEP 1 OF 3

STEP 2 • 00:27 IN THE VIDEO

Browse the project items

Items list by week with their plant, hours and preliminary works, and progress claims are raised from here.

CHAPTER 01 • STEP 2 OF 3

Project info and items

Total Cost	\$3,730.00
Invoiced Amount	\$1,216.12
Unit Price	\$12,161.25
Unit Cost	\$3,730.00
Quantity	1 Item
Type	Stock
Sub Type	Materials
Billable	Yes
SUB-PRODUCTS	
Supervisor	
Labour	8 hours
Labour	8 hours

STEP 3 • 00:40 IN THE VIDEO

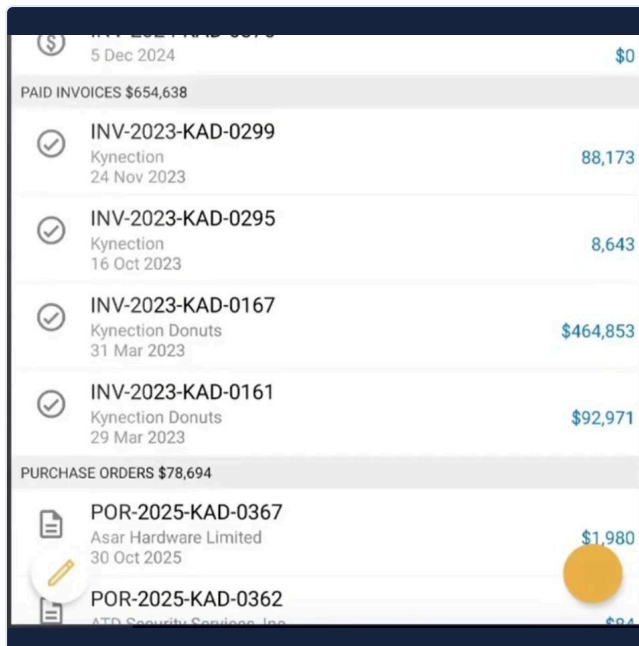

Open an item

The detail shows unit price, unit cost, quantity, type, sub-type and billable status, with supervisor and labour hours beneath.

CHAPTER 01 • STEP 3 OF 3

Finance

Invoices and purchase orders against the project, on the phone.

PAID INVOICES \$654,638	
INV-2023-KAD-0299 Kynection 24 Nov 2023	88,173
INV-2023-KAD-0295 Kynection 16 Oct 2023	8,643
INV-2023-KAD-0167 Kynection Donuts 31 Mar 2023	\$464,853
INV-2023-KAD-0161 Kynection Donuts 29 Mar 2023	\$92,971
PURCHASE ORDERS \$78,694	
POR-2025-KAD-0367 Asar Hardware Limited 30 Oct 2025	\$1,980
POR-2025-KAD-0362 ATD Security Services Inc	\$0.00

STEP 1 • 00:55 IN THE VIDEO

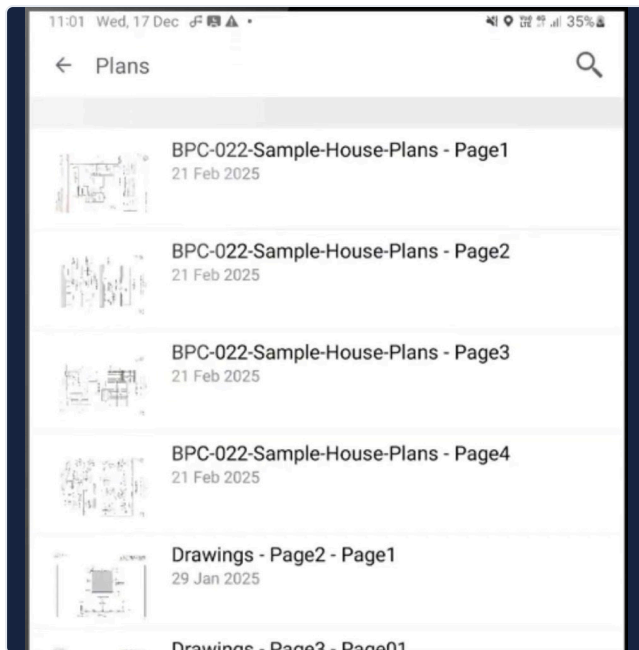

Check the finance tab

Finance lists paid invoices and purchase orders with their values and totals, so the money position is visible on site.

CHAPTER 02 • STEP 1 OF 1

Files and plans

Drawings are opened and annotated where the work is happening.

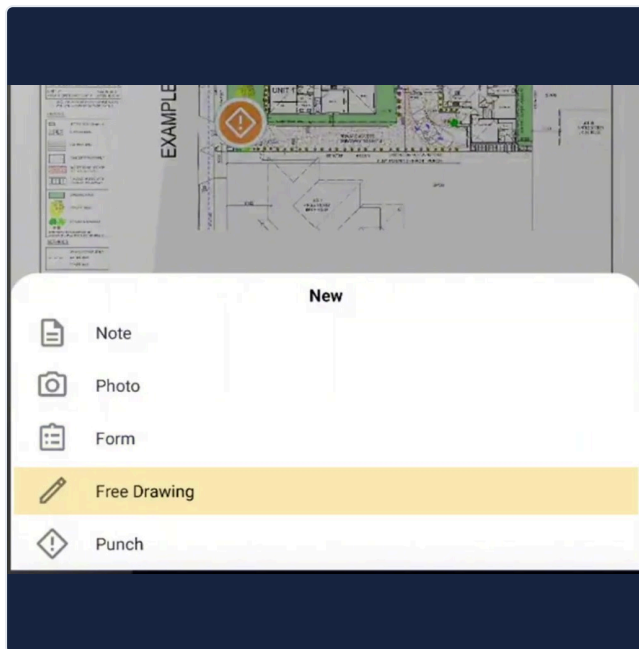

STEP 1 • 01:07 IN THE VIDEO

Open the plans library

Plans lists each drawing sheet with its page and revision date.

CHAPTER 03 • STEP 1 OF 2

STEP 2 • 01:15 IN THE VIDEO

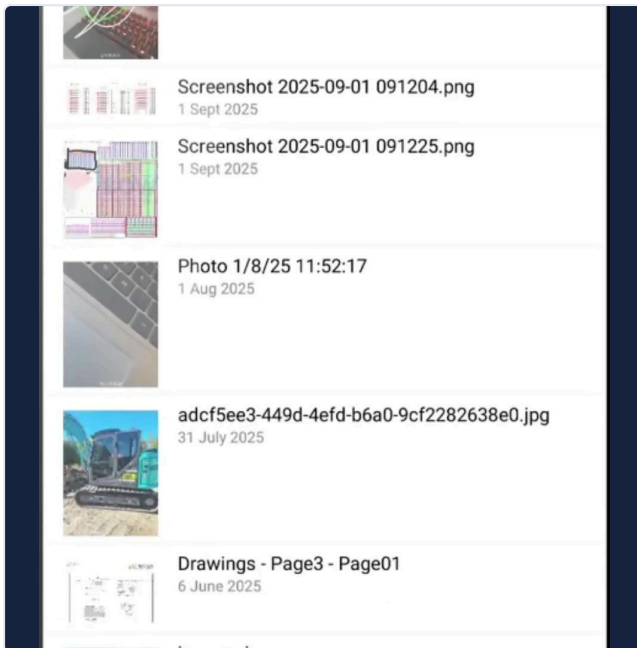

Annotate a drawing

Opening a plan gives the markup tools: **Note**, **Photo**, **Form**, **Free Drawing** and **Punch**.

CHAPTER 03 • STEP 2 OF 2

Photos and AI analysis

A site photo can be turned into a written analysis report.

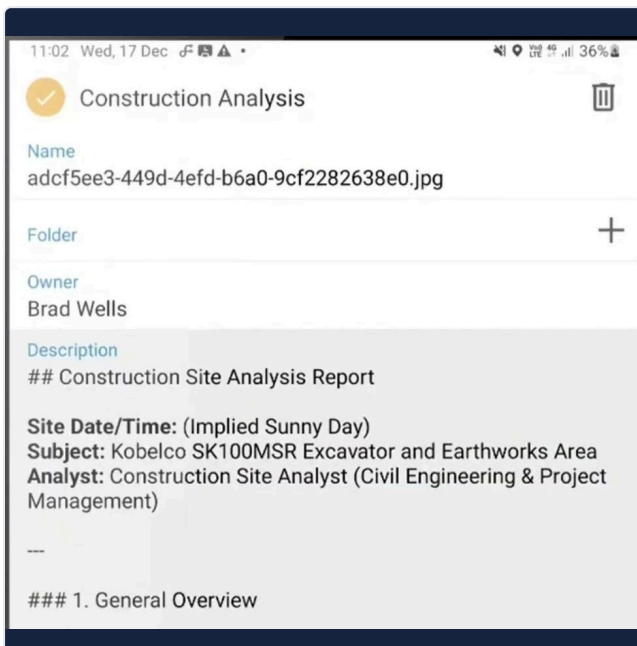

STEP 1 • 01:23 IN THE VIDEO

Capture site photos

Photos taken on site list with their filename and date against the project.

CHAPTER 04 • STEP 1 OF 3

STEP 2 • 01:38 IN THE VIDEO

Run the analysis

Construction Analysis takes the photo and an owner, and produces a site analysis report.

CHAPTER 04 • STEP 2 OF 3

Photos and AI analysis

Brad Wells

Description

Construction Site Analysis Report

Site Date/Time: (Implied Sunny Day)

Subject: Kobelco SK100MSR Excavator and Earthworks Area

Analyst: Construction Site Analyst (Civil Engineering & Project Management)

1. General Overview

- **Description:** The image focuses tightly on a modern, tracked hydraulic excavator (Kobelco SK100MSR) parked or operating on dry, dusty ground. A large pile of excavated soil (spoil) is visible behind the machine's boom/bucket. The background shows a clear blue sky and perimeter vegetation, suggesting the work is occurring on newly cleared or undeveloped land.
- **Type of Site:** Earthworks and site preparation, likely for infrastructure, commercial, or residential development foundations.
- **Structure Stage:** The site is clearly in the **early-stage works** phase, specifically site grading, bulk excavation, and ground preparation. No structural elements (foundations, framing) are yet visible.
- **Materials:** Predominantly native soil/sand being moved and piled.

STEP 3 • 01:44 IN THE VIDEO

Read the report

The report covers the site date and conditions, subject, general overview, type of site, structure stage and the materials observed.

CHAPTER 04 • STEP 3 OF 3

Where to go next

This guide covers one part of the projects module. The rest of the series covers the module end to end.
